Stevent's reading list

Steven Yu-chun Huang

October 6, 2015

1   What I have read.

I've been working on machine translation project, so I read both traditional statistical machine translation algorithms and word embeddings methods.[1, 2, 3, 4, 6, 7, 8, 9, 10, 13, 18, 5, 11, 12]. I also spent some time implementing and testing "Developmental Mental Architecture" done by Weng [16, 14, 17, 15].
